- **Goal 1**

Introduce the Positive Leadership Development Institute to New Zealand. Run one Course this fiscal. Have 14 participants graduate the Institute and become PHA Leaders.

Ensure the evaluation shows measurable impact from the course (based on the post course evaluation and 6 month follow-up).

- **Goal 2**

Create a PHA education forum running monthly with 10 sessions scheduled once funding is received. Attract experts in the field to present on topics with an increasing local attendance. Have these presentations streamed and facilitated at 4 regional locations initially and the educational material presented again as new regions of the network become active.

Evaluate each presentation to ensure the curriculum is meeting demand and is facilitating change.

- **Goal 3**

Create 6 regional networks within one year of funding. Host a one day seminar including all leaders and network to share learnings and visions for the future of Peer lead interventions in NZ. Evaluate the performance of the program after one year of operation.
